Mee Memorial Hospital Selects Pavisse™ to Support Quality and Accountability

KING CITY, Calif. and SAN FRANCISCO, Nov. 17, 2015 /PRNewswire/ -- Mee Memorial Hospital and RGP Healthcare™, a division of Resources Global Professionals (NASDAQ: RECN), today jointly announced that Mee Memorial is implementing Pavisse™, a new, state-of-the-art incident management and patient safety system.

Mee Memorial is a 94-bed facility that provides in-patient, out-patient and emergency services to residents of Southern Monterey County in California. Mee Memorial offers the only hospital-based Chronic Out-Patient Hemodialysis service in Monterey and San Luis Obispo counties. The hospital also has a network of three clinics in King City and one clinic in Greenfield.

"We are excited about our partnership with Pavisse," said Denise Miller RN, BSN, Risk Manager/Quality Assurance Director at Mee Memorial. "The selection of the Pavisse software system provides comprehensive tools to support our core values of quality, accountability, teamwork, and communication."

Pavisse, developed by RGP Healthcare, is a comprehensive patient safety and peer review solution designed to help hospitals, clinics and senior living communities manage adverse events and other compliance-related functions across the enterprise.

"Mee Memorial has been serving Southern Monterey County for more than 50 years, providing highly personalized care," said RGP Healthcare President Radgia Cook. "We are pleased Mee Memorial is deploying Pavisse to meet its incident reporting and management needs."

About Mee Memorial Hospital

Mee Memorial Hospital provides primary health care and access to comprehensive health services in a professional and caring environment. Since its founding in 1962, Mee Memorial has grown into a 94-bed hospital and continues to provide the best inpatient, long term care, outpatient and emergency services care for the people of South Monterey County. In an effort to meet both inpatient and outpatient needs of the hospital's service area, Mee Memorial continues to fine-tune and expand, when appropriate, its inpatient services, long term care, and outpatient services. In addition to a myriad of hospital services, Mee Memorial has a network of four clinics to serve its clientele, three in King City and one in Greenfield. It is proudly accredited by The Joint Commission, which indicates that the hospital practices, policies, and procedures are of the most rigorous standards in patient care. The loyal support the hospital has received during its history, along with the dedication of the staff and board of directors, are, in large measure, responsible for the Mee Memorial Hospital's longevity.

About Pavisse

A highly affordable and effective [incident management system](#), Pavisse™ has the unique ability to capture incident data and provide required reports to multiple patient safety organizations (PSOs) and state agencies on-demand or via a set scheduling process that includes quarterly and annual report capabilities. Healthcare organizations (HCOs) can customize workflow, data collection, analysis and reporting to meet specific needs without the need for complex data transformations or double data-entry. Content-driven, Pavisse can be easily applied to potentially any type of incident management workflow. Innovative reporting capabilities provide executive dashboard overview and monitoring as well as unparalleled internal benchmarking and Pareto graphing for easy-to-understand outcomes and problem area identification. Dynamic automated workflow provides unique issue audit and corrective action plan (CAP) capabilities, and the CAP Toolkit includes an extensive online archive of global best practices.
