## **Enterprise PMO Assessment & Optimization:** Tuning the Engine for Agility and Growth

## **Global HR Transformation:** Bringing Digital Technology to Project Management

### **The Challenge**

A Global Automotive Financial Services client was seeking to enhance the speed of development and delivery of key projects while maintaining high quality. RGP was asked to optimize the Enterprise Project Management Office (EPMO) organization and drive adoption of Agile practices among client employees.

### **Our Impact**

RGP established a governance framework for Agile and hybrid project approaches that promoted transparency while easing the transition to new ways of working.

- Enabled better decision making by building interactive dashboards that provided a consolidated view of client's project portfolio.
- Enabled more effective use of resource skills, knowledge and desire.
- Facilitated the successful adoption of Agile and Hybrid project delivery approaches.
- Facilitated the resolution of dependencies between projects and helped to increase the pace of change being delivered.

### **The Challenge**

A Fortune 100 Financial Services client asked RGP to course correct an inflight multi-year global HR transformation initiative. The Big 4 firm leading the initiative for over a year was not making good traction. The client enlisted RGP's support (through a two-in-the-box model) to ensure the successful establishment of its Global HR Transformation PMO.

### **Our Impact**

RGP provided expert project management services enabled by a proprietary digital project management tool to simplify and solve the client's governance/execution problems.

- Created custom templates to capture individual project plans, tasks and dependencies.
- Built analytic algorithm metric-based management reports and dashboards to monitor, measure and report on progress.
- Digital Project Management Framework, LaunchPM provided senior management with a customized view of program/project dashboards along with real time collaboration capabilities across the program.
