Central Washington Comprehensive Mental Health Selects Pavisse™ to Manage Incidents, Support Quality and Enhance Patient Safety

KING CITY, Calif. and SAN FRANCISCO, April 11, 2016 /PRNewswire/ -- Central Washington Comprehensive Mental Health ("Comprehensive") and RGP Healthcare™, a division of Resources Global Professionals (NASDAQ: RECN), today jointly announced that Comprehensive is implementing Pavisse™, a new, state-of-the-art incident management and patient safety system.

Comprehensive is a private nonprofit organization that offers a full range of behavioral health and substance use disorder treatment services, with special programs for veterans, victims of crime, parents, and employees. Since 1972, Comprehensive has been providing services to children, adults, and families throughout Central and Eastern Washington State. Comprehensive specifically focuses on the needs of those most seriously ill and those without access to other treatment resources. The organization has developed a broad and innovative continuum of care that addresses the needs of all age groups and provides a range of treatment from inpatient to brief outpatient care. Services are focused on making a successful recovery from behavioral health problems and include a range of rehabilitative opportunities.

"We are excited about our partnership with Pavisse," said Jack A. Marris, Vice President of Comprehensive. "We see Pavisse as a system that can significantly aid the organization's incident reporting to effectively monitor safety and help make improvements to better support staff and serve individuals."

Pavisse, developed by RGP Healthcare, is a complete patient safety and peer review solution designed to help hospitals, clinics and senior living communities manage adverse events and other compliance-related functions across the enterprise.

"Comprehensive is our first partner dedicated to behavioral and mental health care," said Radgia Cook, President of RGP Healthcare. "As a premier provider of services in Central and Eastern Washington, we are excited Pavisse is part of their efforts to maintain and improve patient safety and quality."

About Central Washington Comprehensive Mental Health

Central Washington Comprehensive Mental Health (Comprehensive) is a private non-profit community mental health organization. Comprehensive has been providing mental health and substance use disorder treatment services to adults, children and families since 1972. Currently, Comprehensive serves six counties in Central and Eastern Washington State. These counties include Yakima, Kittitas, Klickitat, Benton, Franklin and Walla Walla. Comprehensive provides a wide array of mental health and substance use disorder services from inpatient acute care for adults and children, including a Detox, Opioid Treatment Program, adult residential facilities with a facility specializing in co-occurring treatment, outpatient, Rehab and ACT, and Supported Living. Additionally, Comprehensive provides specialized services for homeless veterans, victims of crime, parent training and employee assistance. Comprehensive has been a leader in the state with the use of evidence based practices to the children and families it serves. Comprehensive is Joint Commission accredited. Comprehensive has over 700 employees and serves over 20,000 unduplicated individuals annually.

About Pavisse

A highly affordable and effective [incident management system](#), Pavisse™ has the unique ability to capture incident data and provide required reports to multiple patient safety organizations (PSOs) and state agencies on-demand or via a set scheduling process that includes quarterly and annual report capabilities. Healthcare organizations (HCOs) can customize workflow, data collection, analysis and reporting to meet specific needs without the need for complex data transformations or double data-entry. Content-driven, Pavisse can be easily applied to potentially any type of incident management workflow. Innovative reporting capabilities provide executive dashboard overview and monitoring as well as unparalleled internal benchmarking and Pareto graphing for easy-to-understand outcomes and problem area identification. Dynamic automated workflow provides unique issue audit and corrective action plan (CAP) capabilities, and the CAP Toolkit includes an extensive online archive of global best practices.
