

## **Sierra View Local Health Care District Selects Pavisse™ to Manage Incidents and Enhance Patient Safety**

SAN FRANCISCO - September 23, 2015 - RGP Healthcare™, a division of Resources Global Professionals (NASDAQ: RECN) today announced that Sierra View Local Health Care District is implementing Pavisse™, an integrated incident management and patient safety system, across all its facilities.

Pavisse, developed by RGP Healthcare, is a comprehensive patient safety and peer review solution designed to help hospitals, clinics and senior living communities manage adverse events and other compliance-related functions across the enterprise.

Sierra View, which serves the Southern Sequoia region of California's Central Valley, is deploying Pavisse system wide to monitor, track and remediate incidents and enhance patient safety. Pavisse also will help Sierra View generate reports that can be automatically routed to managers on a timely basis. Sierra View's facilities include: Sierra View Medical Center, The Distinct Part Skilled Nursing Facility (DP/SNF) at Sierra View, Sierra View District Hospital Ambulatory Surgery Department, Dialysis Center at Sierra View Medical Center, Roger S. Good Cancer Treatment Center, and Sierra View Medical Plaza.

"Sierra View is a healthcare leader in the Central Valley, and we are pleased they have chosen Pavisse to enhance their commitment to patient safety and well being," said RGP Healthcare President Radgia Cook.

### **About Sierra View Local Health Care District**

Sierra View Local Health Care District offers a 167-bed, full-service acute care facility (Sierra View Medical Center) located in Porterville, Calif. The medical center serves the Southern Sequoia region of California's Central Valley and is the pre-eminent health care provider in the area. In 2003, Sierra View opened its Medical Office Building, which houses hospital outpatient services along with office space for support staff. In 2005, the Cancer Treatment Center completed an extensive expansion and remodeling project that saw the facility nearly double in size. Most recently, Sierra View completed its new outpatient Dialysis Center. Recent enhancements include the addition of a state of the art MRI and CT scan - putting Sierra View on par with UCLA and UCSF; an expanded full service Cancer Care facility; and a seven-bed pediatric unit operated in collaboration with Children's Hospital of Central California.

### **About Pavisse**

A highly affordable and effective [incident management system](#), Pavisse™ has the unique ability to capture incident data and provide required reports to multiple patient safety organizations (PSOs) and state agencies on-demand or via a set scheduling process that includes quarterly and annual report capabilities. Healthcare organizations (HCOs) can customize workflow, data collection, analysis and reporting to meet specific needs without the need for complex data transformations or double data-entry. Content-driven, Pavisse can be easily applied to potentially any type of incident management workflow. Innovative reporting capabilities provide executive dashboard overview and monitoring as well as unparalleled internal benchmarking and Pareto graphing for easy-to-understand outcomes and problem area identification. Dynamic automated workflow provides unique issue audit and corrective action plan (CAP) capabilities, and the CAP Toolkit includes an extensive online archive of global best practices.
