Pullman Regional Hospital Deploys Pavisse™ To Enhance Patient Safety

PULLMAN, Wash. and SAN FRANCISCO, Feb. 3, 2016 /PRNewswire/ -- Pullman Regional Hospital and RGP Healthcare™, a division of Resources Global Professionals (NASDAQ: RECN), today jointly announced that Pullman Regional is implementing Pavisse™, a new, state-of-the-art incident management and patient safety system.

Pullman Regional Hospital is a nationally recognized, 25-bed critical access hospital. Located in Pullman, home of Washington State University and at the heart of the Palouse, the hospital serves a large geographic area spanning southeastern Washington and northern Idaho. Pullman Regional is a 5-star hospital with a 95th percentile ranking in overall patient satisfaction based on HCAHP scores. With an active medical staff of more than 60 providers, a wide array of medical services and da Vinci robotic-assisted surgery, Pullman Regional is a progressive hospital dedicated to facilitating a healthier quality of life for the community.

Pavisse, developed by RGP Healthcare, is a comprehensive patient safety and peer review solution designed to help hospitals, clinics and senior living communities manage adverse events and other compliance-related functions across the enterprise.

"Pullman Regional is an award-winning community hospital that continuously seeks to improve its operations," said RGP Healthcare President Radgia Cook. "We are pleased to help Pullman Regional deploy Pavisse to enhance patient safety and well being."

About Pullman Regional Hospital

Pullman Regional Hospital is a full-service medical center that offers a range of advanced medical services to the Palouse region, a vast geographic area spanning southeastern Washington and northern Idaho. The 95,000 square-foot facility features a state-of-the-art surgery center, fully digital imaging department, private birthing suites, a helipad and wireless patient information. Pullman Regional Hospital is a Level IV State Designated Trauma Center and provides 24-hour Emergency Medicine care by board certified emergency medicine physicians. The hospital overlooks the campus of Washington State University, a PAC-12 school.

About Pavisse

A highly affordable and effective [incident management system](#), Pavisse™ has the unique ability to capture incident data and provide required reports to multiple patient safety organizations (PSOs) and state agencies on-demand or via a set scheduling process that includes quarterly and annual report capabilities. Healthcare organizations (HCOs) can customize workflow, data collection, analysis and reporting to meet specific needs without the need for complex data transformations or double data-entry. Content-driven, Pavisse can be easily applied to potentially any type of incident management workflow. Innovative reporting capabilities provide executive dashboard overview and monitoring as well as unparalleled internal benchmarking and Pareto graphing for easy-to-understand outcomes and problem area identification. Dynamic automated workflow provides unique issue audit and corrective action plan (CAP) capabilities, and the CAP Toolkit includes an extensive online archive of global best practices.
